

Semnan
University

The initial nucleus of Semnan University was formed in 1975 with the establishment of Semnan Higher Education Center. It launched its activities with 580 students to study in seven programs (Associate's Degree) with an area of 5000 square meters.

After the victory of the Islamic Revolution, extensive as well as fundamental changes were implemented at the Center at large. In 1989 Semnan Higher Education Center started its work under new title of Semnan Higher Education Complex while it enhanced its Electronic & Civil programs to a Bachelor level. Finally, with opening of the faculty of engineering, faculty of teacher training and faculty of veterinary medicine, Semnan Higher Education Complex changed its status to Semnan University in 1994.

Presently, Semnan University has over 15,000 students who study in 60 programs leading to the Bachelor's degree (B.S.), 95 programs leading to the Master's degree (MSc.), and 55 PhD programs. At present there are 25 faculties, 2 colleges, 2 institutes, 9 research groups, one Science and Technology Park, one Advanced Technologies Incubator Center

The university has 320 fulltime academic members. It is situated in the Northeast part of the Semnan city with an area of 800 hectares. Libraries, computer centers, sports halls, restaurants, coffee shop and several dormitories are other facilities of the university. Since Semnan University is relatively young and newly established it is still under expansion and construction. The university has 320 fulltime academic members. It is situated in the Northeast part of the Semnan city with an area of 800 hectares. Libraries, computer centers, sports halls, restaurants, coffee shop and several dormitories are other facilities of the university. Since Semnan University is relatively young and newly established it is still under expansion and construction.

University has so expanded to include four campuses:

1. Technical campus
2. Basic Sciences campus
3. Human Sciences campus
4. New Science and Technology campus
- 5-Art campus

Humanities campus

Faculty of Humanities

Faculty of Economics, Management and Administrative Science

Basic Sciences Campus

Faculty of Mathematics, Statistics and Computer Sciences,

Faculty of Physics

Chemistry College

Faculty of Biology

Technical campus

Faculty of Computer and Electrical Engineering

Faculty of Civil Engineering

Faculty of Mechanical Engineering

Faculty of Materials Engineering and Metallurgy

Faculty of Chemical and Oil and Gas Engineering

Faculty of Industrial Engineering

Art campus

Faculty of Art, Architecture and Urban Planning

New Sciences and Technologies Campus:

Faculty of Petroleum Engineering

Faculty of Nanotechnology

Faculty of Biotechnology

Faculty of Aerospace Engineering

Other faculties of Semnan University

Faculty of Veterinary Medicine,

Faculty of Natural Resources and Agriculture

Faculty, tourism,

Faculty of Desert ology,

Sports facilities

Semnan University has the following sports facilities for student activities

Fajr sport hall with a capacity of 2500 people

It has three natural and artificial grass football fields

Shooting halls and athletics

Gyms with equipped facilities

Kausar and Farzangan sports halls

The central library and document center of Semnan University is one of the successful projects in the field of library design. This project is located in the central pole of the university with an infrastructure of eight thousand square meters, including a library and a meeting hall built next to each other.

The design of the library can be a characteristic of a modern and influential architecture and it tells a part of the cultural identity of a society. Fractures and special lighting are used in the design of this library.

Various departments of the Central Library and Document Center of Semnan University, including the printed resources department, reading department, sitting room for reading newspapers, book cafe, reference collection hall, office, systems management and support, digital resources, museum and document center (exquisite book space)) is interesting in its own way.

The Science and Technology Park of Semnan University was established in 2007 in line with the economic, social and cultural development programs of the Islamic Republic of Iran and within the framework of the missions of the Ministry of Science, Research and Technology with the aim of expanding knowledge-based activities and improving the level of technology in the region. The existence of many regional capacities, especially abundant natural resources, high industrial and mineral potential and the availability of expert human resources under the shadow of universities and educational and research centers, Semnan University Science and Technology Park as the first university science and technology park in the north and The northeast of the country has a special position and prestige. The activity of science and technology park in various fields of electronics, mechatronics, control systems, IT, nano technologies, new energies, arts and crafts is proof of the diligence and forward-looking development view of the founders, the founding organization and the officials of the complex. Science and Technology Park of Semnan University has been able to provide special support to technological units and companies in the production of knowledge-based products and services in the path of transforming science into technology.

The Shahid Soleimani Conference Center has been built with a substructure of 5,300 square meters. This project has been included in the desired list next to Maxi Rome Museum by Zaha Hadid, winner of the best building of the year in 2010 at the World Architecture Festival. And the cross chafd in the facade shows the volume visually connected, while the dark triangular fixed glass illuminates the space and actually plays with light and shadow in a way.

Semnan University has at least 41 specialized laboratories with advanced facilities and equipment. some of which are:

Central laboratory
Mechanical properties laboratory
Heat treatment laboratory
Heat treatment laboratory
Casting Workshop (Faculty of Materials)
Casting Workshop (Faculty of Materials)
Laboratory of advanced materials engineering and metallurgy equipment
Laboratory of advanced materials engineering and metallurgy equipment
Clinical Science Laboratory etc...

Tourist and entertainment attractions of Semnan:

Phoenix Tourism Tower

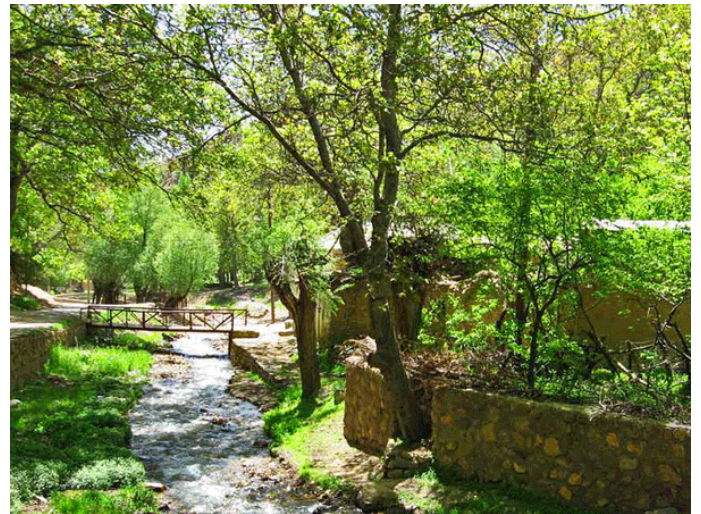

Gut Ke Mall Water Park

Darjezin Pomegranate orchards

Darband Cave

Shahmirzad tourist city

Parvar Wildlife Protected Zone
